O radio is a multimedial platform and the youngest media of Serbian regional public service - Radio Television of Vojvodina. Our studio is in Novi Sad, a capital of Vojvodina, known also as "city of festivals".

O radio is the meeting place of modern technology and highest ethical and professional standards. We are the virtual gathering place for young people and for those who think alike. We're your living room with a window overlooking a world where good and bad are clearly defined, reality is optimistic but without any make-up, and heroes are who they should be - role models for everybody.

With music, informations, education, fun and promotion of true values we gain trust of our public. Last year O radio got the title of The Best European radio station, during the radio battle between European radio stations organized by Italian public service RAI2.

During the Radio City festival we'll try to present our city, Novi Sad as a very attractive destination for the young people. Our audience in Milan will have the opportunity to meet the organizers of one of the largest European music festivals, EXIT, and will have exclusive informations about this year's headliners. In addition, Italian street artist Beppe Boron will be performing live at our mobile studio in Milan. Beppe Boron participated two times at our local festival in Novi Sad called „Street Musicians Festival".

Last year Novi Sad won the title of European Youth capital 2019. Our radio hosts are also going to talk about all the opportunities that Novi Sad provides for young Europeans.

*At the same time there will be a lot of good music, so be ready for the great O radio party!*
